<b>BACKGROUND TO GRANT APPLICATION:</b>			
<p>Following on from some extensive research by M Rawnsley, resident of Hawksworth Wood for over 60 years, we decided to immortalise her findings in erecting a 'war memorial' to ensure that these men and woman's names are never forgotten and will be a focus for pride in a central point on the estate.</p> <p>Many family members still live on the estate, Vespers and Abbeydales and have already given their thanks for this project.</p> <p>It is intended not to be just for WW2 but for all service men and woman and indeed civilians lost in conflict. The newest names date back to 1972, a young man killed on active duty in Northern Ireland, his family still live on the estate.</p> <p>We intend for the memorial to be erected on the grass outside the Co-Op, this being the most central part of the estate and visible by-passing traffic / bus route.</p> <p>We feel this would benefit the whole area, this memorial will instil local pride and togetherness that is inclusive for the whole area. We plan a large unveiling ceremony and have already had media interest and will invite representatives from all the relevant regiments, school children (time capsule from Hawksworth Wood Primary School) and council representation.</p> <p>A lasting memorial for all.</p>
